

ROBOAT

Vacancy Marketing & Communications intern

- 6 months
- €500 per month
- Based in Amsterdam

ROLE

We are looking for a marketing and communications intern with a passion for storytelling and technology. We are doing some amazing projects, and we need some help to show it to the world! If you are looking to grow your experience in brand building, content creation, social media management, and external communication then look no further!

YOUR INPUT

Requirements:

- A creative spirit with a flair for aesthetics and the communications skills to back it up.
- Excels in a fast paced, highly autonomous environment.
- A strong command of the English language.
- Experience with Adobe CC or similar.
- Excited to produce quality content for a variety of media channels.
- An interest in how to communicate new ideas and technology.
- Keen to join us on a wild ride and have a lot of fun doing it.

ABOUT US

As the world's cities undergo major changes, there is a strong need for efficient transport. We see an opportunity for the inland waterways to play a key role in city mobility and logistics. By bringing autonomy to vessels, Roboat will transform the movement of people and goods across the water.

Operating at the intersection of design, robotics, and software engineering, Roboat is a growing business that has a place for anyone who is highly driven, enthusiastic to learn, and occasionally enjoys nautical theme songs. Some of our current projects include:

1. A fully autonomous, electric, and 3D printed ferry for use in the city of Paris and operational during the 2024 Olympics and beyond.
2. A situational awareness safety system for the iconic GVB ferries of the Amsterdam IJ River.
3. Retrofitting the Roboat system onto a cutting-edge demonstration vessel.
4. Establishing additional assignments in other cities – think Venice, New York, the Maldives, Helsinki, Seattle, etc.

Come help us create the most incredible autonomous vessels around and hopefully change mobility in the process. Want to know more about us? Check out: www.roboat.tech

INTERVIEW PROCESS

Excited? Sounds like this might be you? Even if you don't meet our exact requirements, we're always on the lookout for great people from all backgrounds – so tell us why you're a fit.

Send us an application

If reading this vacancy makes you feel like you're ready to set sail; cast off; jump on board — or any other ship metaphors for joining the team — then whoever you are or wherever you come from, we encourage you to apply.

Send us a short cover letter and a portfolio of your past adventures relevant to this vacancy and let us know what you'd love to do in the future.

Interview

Typically interviewing with us takes about three weeks from the first introduction call. The steps:

1. Quick introduction video call or call.
2. One-hour onsite interview to get to know you, your motivations, and your work a little better (we can also facilitate an online interview if necessary).
3. We will let you know our decision.

Send your application to info@robot.tech
